## Press Release

---

### **New Marine Electronics Donated and Installed**

Posted: August 13, 2008

When the Ocean City Volunteer Fire Company was in need of upgrading the electronics on their fire boat, Ed Thompson, owner of Martek Marine Electronics, Inc. came to the rescue. In conjunction with Raymarine, Martek recently donated over half the cost of the equipment and installation of a Raymarine C70 GPS system. This new chartplotter will enable the Fire Company to locate emergencies on the bay for faster response.

The Ocean City Volunteer Fire Company is eternally grateful to Mr. Ed Thompson and Martek Marine for their generosity. The system has been placed in service on the marine unit out of our 15th Street firehouse and is available for immediate response throughout the community for water related emergencies.
